Corporate Group Training

You are here because you recognize how important payment card data and PCI Compliance is to your business. A data breach can severely damage your reputation and your ability to conduct business effectively for years - resulting in fines, penalties, loss of sales, damaged relationships and more.

Learn directly from an instructor with hands-on experience in the field of payments security. All courses are available in group training format and delivered as part of our eLearning platform. Your organization will receive all the benefits of an instructor-led training class, at a time and place most convenient for you and your staff.

The PCI Security Standards Council is committed to providing you and your staff (or clients) a way to further your professional development. In as little as one or two days, your organization can be on the road to better data security!

SECURING THE FUTURE OF PAYMENTS TOGETHER

[LEARN MORE](#)

The PCI Security Standards Council's mission is to enhance global payment account data security by developing standards and supporting services that drive education, awareness, and effective implementation by stakeholders.

Why Secure?

Keep your systems secure, and customers can trust you with their sensitive payment card information. When you stay compliant, you are part of the solution - a united, global response to fighting payment card data compromise.

Paving the Way: Inspiring Women in Payments - A Q&A featuring Jennifer Boyd

POSTED BY ALICIA MALONE ON 16 MAY, 2022 IN INTERVIEW AND PCI SSC AND WOMEN IN PAYMENTS

When Jennifer Boyd started her career in Information Technology many years ago, she was one of only a few women in her department. At that time, like in many other professions, technology was perceived as more of a gender-specific role. In this edition of our blog, Jennifer explains how she pursued the career she loved despite the challenges, and why she believes more women will be encouraged to join the industry as they see other women simply ...
