

Payment Card Industry (PCI) Point-to-Point Encryption Solution Requirements and Testing Procedures

**Summary of Errata Changes
from v2.0 r1.1 to r1.2**

March 2020

PCI P2PE Summary of Errata Changes

This document provides an overall summary of errata changes from P2PE v2.0 revision 1.1 to P2PE v2.0 revision 1.2 of the Solution Requirements and Testing Procedures (i.e., the P2PE Standard).

Table 1: Change Types

Change Type	Definition
Clarification	Clarifies intent of requirement or testing procedure. Ensures that concise wording in the standard portrays the desired intent of requirements.
Additional guidance	Explanation, definition, and/or instruction to increase understanding or provide further information or guidance on a particular topic.
Evolving / New	Changes to ensure that the standard is up to date with emerging threats and changes in the market. May consist of a new or modified requirement, test procedure, or context.
Removal	Deleted a requirement or context due to redundancy or to better reflect the intent of the standard.
Restructure	Changes to eliminate redundant requirements or better align content with other requirements/standards.

Table 2: Summary of Changes

P2PE v2.0 r1.1	P2PE v2.0 r1.2	CHANGE	TYPE
OVERVIEW			
	<p>P2PE Solutions and Use of Third Parties and/or P2PE Component Providers</p> <p>and</p> <p>Applicability of Domain 6 and Annexes to P2PE Solution Providers and Component Providers</p>	<p>Clarified applicability of Domains for the operation of CA/RAs.</p>	<p>Clarification</p>
