

Do you want to know more about the PCI Data Security Standard (PCI DSS)?

Understand at a high level how PCI DSS helps protect cardholder data

Apply PCI DSS to your organization

## PCI Awareness

Receive basic awareness training on PCI DSS and data security best practices

### KEY BENEFITS

- Obtain a basic understanding of PCI DSS and how it can help protect your customer payment data and your business
- Learn about what's required for PCI DSS compliance before your organization goes through a PCI DSS assessment

### WHO SHOULD ATTEND

Business professionals, including executives, managers and staff who are interested in learning more about PCI DSS

## PCI Professional (PCIP)™

Receive training and individual qualification on implementing and maintaining PCI DSS to secure cardholder data

- Support your organization's or client's ongoing security and PCI DSS compliance efforts
- Achieve industry recognition in a searchable directory on the PCI SSC website
- Be part of a PCIP community where knowledge and best practices are shared

IT professionals with experience in any of these areas: security / technology, compliance / risk/governance, audit/finance, e-commerce, and product development / marketing / sales (*develop or sell payments-oriented products*)

Do you want to learn more about PCI DSS assessments?

Learn about assessing your organization's adherence to PCI DSS

## Internal Security Assessor (ISA)

Receive training and qualification on assessing your organization's adherence to PCI DSS

- Gain expertise on assessing your organization's adherence to PCI DSS and improve interactions with a Qualified Security Assessor (QSA) by receiving the same training as a QSA
- Achieve industry recognition in a searchable directory on the PCI SSC website
- Receive regular updates from the PCI SSC via newsletters, webinars and assessor sessions

Internal security assessment, risk management and audit professionals

<b>PCI Awareness</b> 	<b>PCI Professional (PCIP)<sup>TM</sup></b> 	<b>Internal Security Assessor (ISA)</b>
