

Become a Training Venue Host

Your space, our training, mutual benefits.

The PCI SSC Training Venue Host Program connects organizations that have great training space with professionals who need world-class payment security education. As a Host, you provide the classroom and PCI SSC organizes, markets, fills, and delivers the class. In exchange, you receive complimentary seats your team can use to grow their own expertise.

Hosting lowers your cost to access PCI SSC training, supports the broader payments security community, and creates valuable peer-to-peer learning opportunities.

Why host?

- **Reduce your training costs.** Earn one complimentary class seat per class hosted, or two seats when you also provide food and beverage service.
- **Bring training to your team.** Skip the travel, your staff attends in their own building.
- **Learn alongside industry peers.** Your team benefits from open registration and the peer-to-peer discussion that comes with it.
- **Boost your industry visibility.** Position your organization as a contributor to payment security education.

Is this the right program for you?

	Training Venue Host Program	Corporate Group Training
Who attends	Open Registration PCI SSC fills the class with students from across the industry.	Private Only your organization’s staff or invited clients.
What you provide	A qualifying classroom, A/V, and (optionally) food and beverage service.	Payment for a private class with set seat minimums.
What you receive	One complimentary seat per class hosted, or two seats if you also provide F&B.	Discounted per-seat pricing at scale.
Best for	Organizations with a few people to train and great training space who want to support industry education.	Organizations training a full cohort who need privacy and custom use cases.
Peer learning	Yes Your team learns alongside professionals from other organizations.	No Sessions are limited to your team.
Scheduling	PCI SSC requests class dates based on demand and venue suitability.	Your organization sets the date and location, dependent on trainer availability.
